

Optical Specifications

Optical output	Multi-Mode Fiber or Lightguide (2, 3, 5 mm)
Optical output connector	SMA / FC / Lightguide adaptor
Output power	Depending on LED configuration

Electrical Specifications

Connectors for TTL and Analog Input		Optically isolated BNC
Digital modulation (TTL Input 0-5V)	Hz	DC-20000
Analog modulation (Analog Input 0-5V)	Hz	DC-100
Analog power control	%	0-100
USB Digital control (DAC)	Bit	12 (>4000 levels)
Input Voltage	V	12

General Specifications

Operation temperature range	°C	10-35
Storage Temperature range	°C	-65
Operating relative humidity (Non condensing)	%	<90
Enclosure		19" Rack
Power adaptor safety
